Computer Design & Animation
Graduated Summa cum Laude

River View High School

Class Valedictorian 5/2007

Megan Stingel

Profile

Brand and visual designer with 15+ years of experience. Trained in and teaching typography as a discipline — not just a tool. Obsessed with the half-second a design has to stop someone and deliver a message before they move on. An NPR listener who cares about the mission.

Professional Experience

Graphic Design & IT Consultant

Independent Contractor

2013 - Present

- Built brand identity systems for clients across retail, agriculture, and arts sectors — logos, event collateral, and marketing assets designed to communicate fast and land hard.
- Produced recurring campaign materials for women-focused audiences across multiple annual cycles.
- Developed scalable master template systems, delivering organised, editable files for ongoing client use.
- Applied generative AI tools across ideation and production, with a focus on responsible use and human-led creative judgment.

Digital Media Design & IT Adjunct

Central Ohio Technical College

2014 - 2020

- Taught Typography, Graphic Design I & II, Web Design I & III, Digital Media Portfolio, and Digital Video — type selection, hierarchy, image and type integration, print and digital environments..
- Brought professional practice directly into the classroom, ensuring students developed design instincts grounded in real-world performance.
- Incorporated emerging tools and AI-enabled workflows into curriculum.

Technology & Media Specialist

Johnson-Humrickhouse Museum

2013 - 2016

- Sole designer across all museum communications — website, print publications, digital content, event materials, and 15+ large format outdoor banners for special exhibitions.

Interim Chief Operating Officer

Pomerene Center for the Arts

Fall 2013

- Managed digital communications, social media, and website within established brand guidelines for a visual arts nonprofit.

Senior Animation Lab Technician

Kent State Engineering Techn Department

2008 - 2010

- Managed five computer labs serving 200+ students; delivered instruction in Adobe Creative Suite, Flash, Dreamweaver, 3ds Max, and computer programming across multiple languages and platforms.
