Megan Stingel

Commercial graphic designer with 15+ years of experience producing retail-facing digital marketing assets, brand identity systems, event collateral, and web graphics for consumer, non-profit, and small business clients. Skilled in layered image composition, typography, visual hierarchy, and delivering polished print and digital assets at precise technical specifications. Proficient in Adobe Photoshop and InDesign; working knowledge of Illustrator and Canva. Experienced designing consumer facing materials for women-focused audiences. Strong IT background enables rapid adoption of new design platforms and technical requirements. Practiced at producing organized, reusable, editable template files across multi-asset projects. Maintains a self-built portfolio website, demonstrating applied web development skills alongside design practice.

Professional Experience

Independent Contractor

2013 - Present

Graphic Design & IT Consultant

- Developed brand identity systems including logos, business cards, consumer loyalty cards, producing master templates adapted across five to six staff variations while maintaining full brand consistency across all outputs
- Produced commercial design assets for multiple clients across retail, agriculture, and art sectors including reoccurring campaigns, graphics, for exhibitions and event promotions
- Delivered organized, editable source files structured for client adaptation and reuse across ongoing campaigns
- Provided integrated design and technology solutions enabling rapid adoption of new platforms and tools without client-side onboarding overhead

Central Ohio Technical College

2014 - 2020

Digital Media Design & IT Adjunct

- Delivered industry relevant curriculum in Digital Media Design & IT fields, integrating professional tools and real world production workflows
- Mentored students across diverse skill levels in design software, digital production, and technical platforms

Johnson Humrickhouse Museum

2013 - 2016

Technology & Media Specialist

- Sole designer and content owner for a full museum website rebrand, maintaining all visual assets and digital communications for three years post launch
- Produced web banner graphics at fixed technical specifications for event and exhibition promotions balancing typography, image composition, and brand consistency
- Designed and produced reoccurring annual fundraiser collateral for a women-focused consumer audience over three years, including programs and event materials: created organized editable master files handed off to incoming staff for continued production
- Designed print and digital collateral for exhibits and quarterly publications, including typography forward layouts optimized for readability and retail appeal
- Managed complete visual asset library across digital and print channels ensuring brand coherence across the full communications catalog

Pomerene Center for the Arts

Fall 2013

Interim Chief Operating Officer

- Managed digital communications, social media, and website maintenance within established brand guidelines
- Coordinated public programming and community outreach events
- Oversaw asset management in compliance with 501(c)(3) and grant funding parameters

Kent State University

2008 - 2010

Senior Animation Lab Technician

- Maintained technology across five computer labs, serving over 200 students
- Streamlined departmental websites for clarity and engagement
- Produced media for community outreach events and student showcases
- Delivered platform instruction for students, faculty, and staff
